

Mr. Chris Fennessy
Environmental Management
Aerojet-General Corporation
P.O. Box 13222
Sacramento, CA 95813-6000

TENTATIVE REVISED NPDES PERMIT, GROUNDWATER EXTRACTION AND TREATMENT SYSTEMS, ARGET, GET E/F, GET H-A, GET J, GET K-A, GET L-A, GET L-B, GOLDEN STATE WATER WELLS, CHETTENHAM WELL AND SAILOR BAR PARK POND, AEROJET-GENERAL CORPORATION (NPDES NO. CA0083861)

Enclosed is a copy of the subject tentative NPDES permit previously provided to you in draft via e-mail. The revisions to the document include the addition of three new discharges associated with treatment systems on Golden State Water Company supply wells, modification of the names of three of the GET systems (GET L to GET L-A, GET L1 to GET L-B and GET K to GET K-A), relocation of the discharge to the American River from GET L-A 1,900 feet downstream, and moving the discharge location for GET K-A from Outfall 3 to Outfall 004 based on a request from the City of Rancho Cordova. In addition, some minor changes to the permit were made to reflect information that has been provided since the last permit adoption in 2007, including incorporation of Resolution No. 2009-0016 that had modified the NDMA effluent limit for several GET facilities.

A Notice of Public Hearing is also enclosed. The tentative permit is planned to be considered by the Board for adoption at its December 2007 meeting. Comments on the revised portions of the tentative permit should be submitted to our office no later than **16 February 2010**.

The tentative requirements have been posted on the Regional Board website (<http://www.swrcb.ca.gov/rwqcb5/tentative>). If you do not have access to the Internet or otherwise require a paper copy of this document be sent to you, please contact me (916) 464-4625 or by email at amacdonald@waterboards.ca.gov.
